We believe the World Needs Improved Awareness on 3 levels.

Improve Rational Consciousness

body and mind

- a more sustainable planet, environment, energy, food, health, education...

Improve Emotional Consciousness

the soul

- Grow awareness through higher levels of spirituality

Improve Digital Consciousness

a unified global conscious nation

- A new “conscious internet” becomes the backbone of a global freeflow nation where everyone has equal chances and is 100% free to grow.
“Be your own internet”, this new internet needs to be owned by all of us together.

THE CURVE OF LIFE

A too efficient system will crash.
A too resilient system is not effective.
The right balance needs to be found.

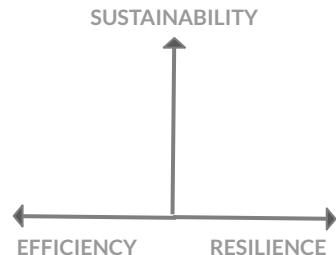

e.g. Mono Culture

WINDOW OF VIABILITY

Resilience is 3x more important
compared to efficiency in natural systems

e.g. Desert

A too efficient system will crash.
A too resilient system is not effective.
The right balance needs to be found.

Current society does not let this happen, this leads to the boom & bust cycle.

WINDOW OF VIABILITY

Hunger for (unsustainable) profit or power

Unstable: Mono Culture

THE BOOM & BUST CYCLE BECAME THE NEW NORMAL

“BUT IT'S NOT NORMAL”

CRASH, system became too efficient -> back to resilience

Our current digital information system has been hijacked, is not green, is not neutral and is not private. We became a product.

80% of Internet/IT capacity (compute & storage)
is generated by less than 20 “Cloud Vendors”

Country Firewalls cut Internet Into Pieces. Encryption to be made illegal?
Backdoors in technology. IT is way too complex & expensive.

Data centers are neither scalable nor efficient.
They consume up to 10% world's electricity today.

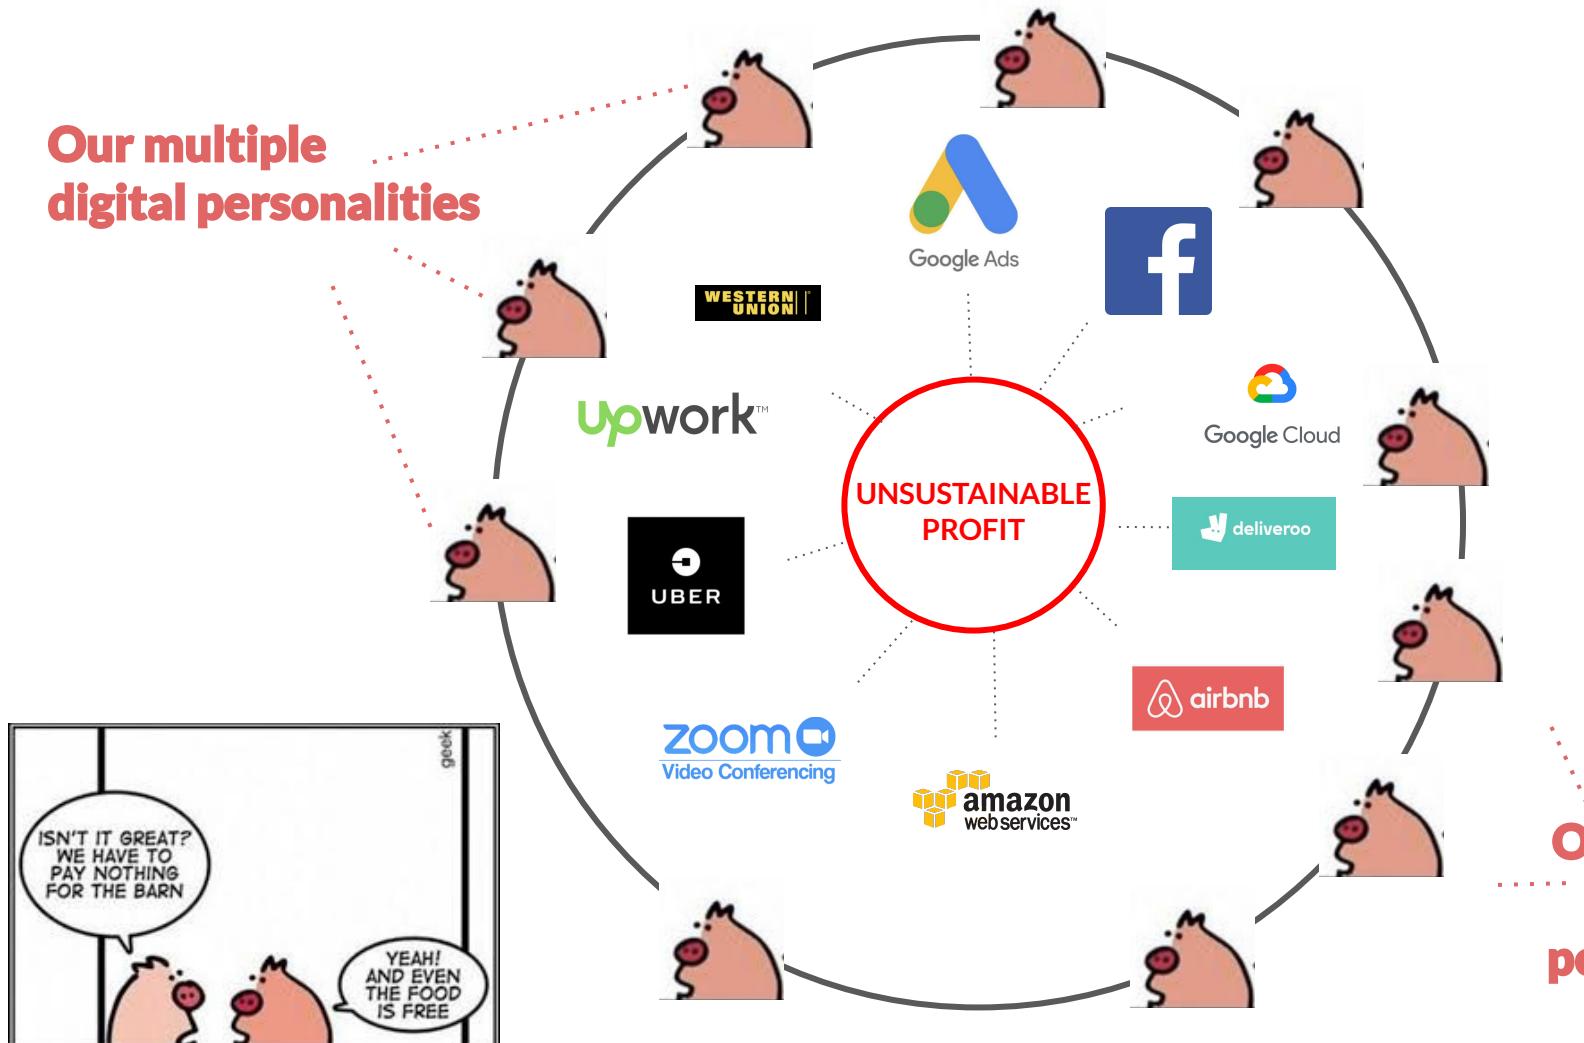

WE NEED A BETTER INTERNET

DATA PRIVACY & SOVEREIGNTY DOES NOT EXIST.
WE ALL BECAME A PRODUCT IN HUGE AI DATA DRIVEN MACHINES.
THIS NEEDS TO STOP. PLEASE WATCH "THE SOCIAL DILEMMA"

THE INTERNET HAS BECOME TOO POWER-HUNGRY.

We exist 100 times on
the internet which is
very inefficient
and not convenient.

A DIGITAL TWIN

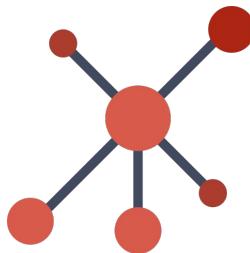

ALL ABOUT YOU

- You* only exist one time
- Super efficient
- No duplication of data or communication
- You pay for what you use
- You're the only one in control

+4D WORLD

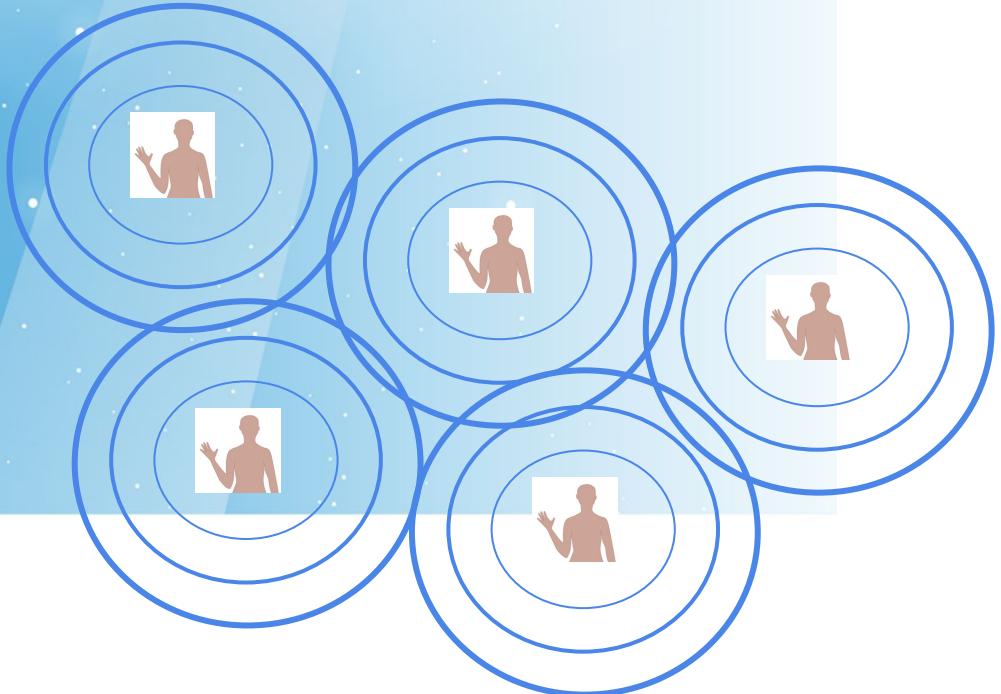

People stuck in 3D World typically

- Victim: blame issues in our society / world on others (politicians, companies, ...)
- Do not have enough self-love to go into their own power and act on it
- Believe efficiency/success is the main tool to get to happiness (money, admiration from others, ...)
- The “star” syndrome, want to be important, they think this leads to happiness, want to be liked

This sits at Left side of curve of life.

You in the Center.
Ownership of your Data.

CENTRALIZED AS WE KNOW "IT"

Centralised Data:

- Star/Pyramid systems
- People driven.
- Centralized Data
- Often Power Hungry
- Can Be Slow & Unscalable
- Expensive
- Most Efficient

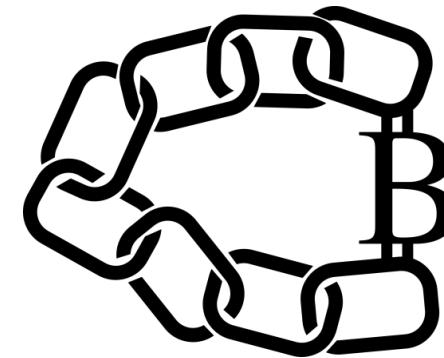

AUTONOMOUS CIRCULAR & PEER2PEER THREEFOLD

Living Grid Of Intelligent Cells

- Distributed (peer2peer)
- Real Decentralization
- 100% guaranteed private
- Green (upto 10x power savings)
- Unlimited Scalable / Fast
- Efficient
- Self Healing Possible
- Super Cost Effective

DISTRIBUTED/SHARED BLOCKCHAIN

Shared Data:

- Good for money & smart contracts
- Distributed
- Too Centralized
- Shared Data / Inefficient
- Power Hungry
- Slow & Unscalable
- Not Private
